- **Premier Player** - if the situation allows, don't be afraid to pitch around him and face the next batter
- **Can't Steal a Strike** - will swing at all pitch types on first pitch, particularly off-speed (75%)
- **Pitch Ahead in Count** - will expand the zone and chase with two strikes, particularly off-speed
- **If Behind in Count** - can come back with off-speed in fastball counts, will both chase and whiff
- **The Last Strike** - elite whiff rates against fastballs, finish him with off-speed or breaking balls
- **Fastball Zones** - small hole in swing high and inside, but if you miss low or middle you'll pay
- **Breaking Ball & Off-Speed Zones** - struggles with low and away pitches, but don't miss high or inside, instead aim to err on the outside and/or low
